- Urgent orders can be supplied from current bullnose/coping stock with next day delivery (where colour matching is not crucial) but the manufacturer cannot guarantee colour matching to body pavers when using existing/coping stock, as the pavers may not be made at the same time.
- Different production dates can lead to significant and noticeable differences in colour due to variations in raw materials and conditions between batches. Always blend pavers from all available pallets when laying.
- We recommend Cleaners and Sealers for your pavers to keep them in good condition.
